****Each line item must contain a description of the position and how it relates to grant objectives or a description of the compensation to be provided. It should also include the percentage to be spent on grant activities, the annual salary, and the hourly rate. ****

All ten members of the current agency staff who provide direct services to sexual assault survivors will receive a one-time retention bonus of \$1,000. Retaining experienced, qualified staff during the COVID-19 emergency has been a challenge and has impacted the ability to provide comprehensive services to sexual assault survivors. These bonuses are designed to retain the staff currently employed who provide these services. All staff members are involved in providing services to sexual assault survivors; however, their base salaries are supported by other grants.

Bonus Fringe is calculated at 10.5% of salary and includes FICA (8.5%), unemployment (1.5%), and workers compensation insurance (.5%). Health/dental/vision insurance is not used as a basis for Bonus Fringe. $\$10,000 * 10.5\% = \$1,050$ * 1 year = \$1,050

Advocate, TBD, will provide advocacy services to sexual assault survivors. The Annual salary is \$50,000 . This grant funds 60.0% of salary including leave pursuant to ABC Agency policies. We are requesting $\$50,000 * 60.0\% * 1.0 \text{ years} = \$30,000$ in grant funds to support their time on this project. The hourly rate is \$24.04 . This position will also provide services to domestic violence survivors that will be supported by other grants.

Advocate, TBD, fringe is calculated at 18.0% of salary and includes FICA (8.5%), unemployment (1.5%), workers compensation insurance (.5%), and health/dental/vision insurance (7.5%) $(\$50,000 * 18.0\% = \$9,000) * 60.0\% * 1 \text{ year} = \$5,400$

OPERATING EXPENSES				
<u>Item</u>	<u>Rate</u>	<u>Amount</u>	<u>Qty</u>	<u>Cost</u>
Rent	\$57,000/year	6.0%	1.0 years	\$3,420
General Office Supplies	\$1,000/each	100.0%	4.0 qty	\$4,000
Telephone/Internet	\$2,400/year	6.0%	1.0 years	\$144
Operating Expenses Total:	\$7,564			

****Any shared expenses need to be allocated as a percentage of the FTEs supported by this grant vs the total FTEs of staff providing services to sexual assault survivors who sharing the resource. For example, if using these funds to support agency rent of \$62,000 per year and only 10 employees out of 20 provide sexual assault services, only 50% of that would be your base. If all staff members provide services to both sexual assault and domestic violence clients, then 100% would be the base. If only one staff member charges time to this grant, out of those 10 people, only 10% can be charged to this grant*****

Rent is necessary to provide a place to work in providing sexual assault survivors with advocacy services. The \$57,000/year Rental costs are allocated based on the FTEs applied to this grant, 0.60, against the total FTEs of staff who provide services to sexual assault survivors and share the space, 10.00, or 6.0%. $\$57,000/\text{year} * 6.0\% * 1 \text{ yr} = \$3,420$

Telephone/Internet service is necessary to provide sexual assault survivors with advocacy services. Telephone service includes office service and cell service for advocates working remotely. Internet service is necessary to store client files and to access that information through secured VPNs for staff working remotely. The \$2,400/year telephone/internet costs are allocated based on the FTEs applied to this grant, 0.60, against the total FTEs of staff who share the service, 10.00, or 6.0%. $\$2,400/\text{year} * 6.0\% * 1 \text{ years} = \144

Office Supplies are necessary to complete the goals of the project and include but are not limited to computers plus necessary accessories, paper, folders, pens, toner, printers, etc. Although many laptops and other electronics were replaced at the beginning of the pandemic, 4 are still in need of replacement or upgrades due to the processing speed required for providing online sexual assault support services. An additional laptop will be purchased to keep as a backup for quick replacement. Laptops and necessary accessories are estimated at $\$1000/\text{each} * 4 \text{ qty} = \$4,000$ is being requested.

Maintaining a full staff is crucial to providing comprehensive services to sexual assault survivors. Job Posting Services will help ensure that potential staff members are more easily and quickly located when vacancies arise. These services have become increasingly pricey and difficult to manage. Different sites offer different rates. An estimate of \$100/month was used with the average time to fill a position requiring 3 months of posting. Given past expenditures, it is estimated that up to four positions, one of which is the new position requested on this grant, will turnover during the course of the grant. High speed internet connections are imperative for providing remote services to victims. During the COVID-19 pandemic, many services were moved to online formats and will continue to be offered and required after the pandemic is over. Standard home internet speeds are often not sufficient for this reason. A stipend will be paid to staff members who need to upgrade their internet connection. \$150/month will be made available for each month of the grant cycle. $\$150/\text{month} \times 12 \text{ months} \times 1 \text{ year} = \$1,800$,

Financial hardship is often a reality for sexual assault survivors. Additionally, some survivors find themselves displaced from their homes and in need of immediate housing.
